## Art of Survival

A Bicycle Event for  
Everyone

### **The Second Annual "Art of Survival Century Ride" May 23, 2015 in Klamath, Siskiyou and Modoc counties promoting Fitness, Family and Fun**

This annual event highlights historical sites along the cycle route paired with rest stops that offer an educational component. This year's ride will feature a century, 40, and two 20 mile family friendly touring routes; plus a 20 mile mountain bike route, passing through Tulelake, Malin, Merrill, and the Lava Beds National Monument.

"The Art of Survival" takes on many meanings in the Greater Klamath Basin. Not only with the American-Japanese internment camp history, but also the history of the area-the early settlers, Homesteaders, Veterans, Modoc Indians, German POW camp, Lava Beds National Monument, and the Tulelake & Klamath Wildlife Refuges.

This is a collaborative effort of many local entities designed to showcase our rich historical heritage and many natural resources. For more information, to register as a participant or to be a sponsor, please visit [survivalcentury.com](http://survivalcentury.com).
